SUMMARY

Motivated B.Sc. AI & Data Science graduate with hands-on Python experience through an internship at Accent Techno Soft. Proficient in Linux fundamentals, SQL, and networking concepts, with growing expertise in AWS cloud services. Quick learner with strong analytical and customer-focused problem-solving skills, seeking to begin a career as a Cloud Support Engineer delivering reliable technical support and smooth cloud operations.

EXPERIENCE

Python with AI intern **Jan 2025 – Apr 2025**

Accent Techno Soft — Coimbatore, India

- Completed a hands-on internship at Accent Techno Soft, Coimbatore, focused on Python programming and AI fundamentals, gaining practical exposure to real-world development workflows.
- Strengthened core Python skills including OOP concepts, loops, functions, and data structures, applying them to solve problem-based coding exercises.
- Gained foundational understanding of AI/ML concepts and how Python is used as the primary language for building and testing AI-driven solutions.
- Collaborated with mentors/team members to debug code, follow best practices, and improve problem-solving approach under real project constraints

PROJECTS

AWS 3-Tier Web Application Architecture | Personal Project

- Designed a highly available 3-tier architecture on VPC with public/private subnets across 2 Availability Zones, using Internet Gateway and NAT Gateway for secure traffic flow
- Deployed EC2 instances for Web and Application tiers with RDS (MySQL) isolated in a private subnet, enforcing tier-based Security Groups for least-privilege access
- Configured Application Load Balancer for traffic distribution and health checks across Web tier instances, with IAM roles for secure service access
- Hosted static assets using S3 and optimized route table configurations to ensure proper network isolation between application tiers

TECHNICAL SKILLS

Languages: Python, SQL, Basic Linux Shell Scripting

Database: MySQL — Stored Procedures, Triggers, Views, Indexing

Cloud Platforms: AWS (EC2, S3, IAM, VPC, CloudWatch — basics)

Networking: IP Addressing, DNS, HTTP/HTTPS, TCP/IP, OSI Model

Tools: MySQL Workbench, AWS Console, PyCharm, MS Excel

Soft Skills: Analytical Reasoning, Problem Solving, Team Collaboration, Fast Learner

EDUCATION

Bachelor of Science in Artificial Intelligence and Data Science **June 2022 – May 2025**

Excel College for Commerce and Science (Affiliated with Periyar University) — Salem, Tamil Nadu, India

CERTIFICATIONS

- AWS Solution Architect Certification — Besant technologies
- Python with AI intern — Accent Techno Soft (2025)
